DESCRIPTION

StoneFix silicone sealant is a high performance, low modulus, neutral curing silicone sealant for sealing and jointing on natural stone and ceramics.

PLEASE NOTE

DO NOT apply if frost is forecast within 24 hours, in wet conditions, in temperatures below 5°C or above 35°C, to areas in direct sunlight or to substrates that are hot.

PREPARATION

Ensure surfaces are clean, dry and free from oil, grease, dust and loose material. Non porous substrates should be cleaned with a suitable cleaner.

APPLICATION

Cut the nozzle at a sharp angle and apply sealant with a gun ensuring good contact is made with the jointing surface.

COVERAGE

Coverage is dependent on the dimensions and joint width & depth.

Joint size & depth in mm	Linear meters per cartridge
5 x 5	12
5 x 10	6
10 x 10	3

Coverage is dependent on the application technique & substrate used and these figures are therefore only a guide.

TECHNICAL DATA

Conformity:	Conforms to ISO 11600
Application temperature:	5°C to 35°C
Set time:	up to 4mm: 1 day 10mm: 7 days
Joint width:	1-25mm
Shelf life:	24 months in cool dry area
Colours:	Anthracite, Beige, Dark Grey, Ivory, Light Grey, Limestone, White
Sizes:	310ml
