PREPERATION

Test the solution on an inconspicuous area before general application. Any alkalinity remaining on surfaces treated with this product should be completely neutralised. This may be done with a little clean water applied by sponge.

APPLICATION

In mild cases and on absorbent tiles:

Dilute one part Stonefix Heavy Duty Grime Remover in 10 parts warm water. Apply with a cloth or mop. Wipe off thoroughly with a clean damp cloth.

In more severe cases:

Dilute one part Stonefix Heavy Duty Grime Remover in 3 parts warm water. Apply liberally, spreading over surface of tiles. If necessary agitate with a scrubbing brush. Leave to react for 5-10 minutes, keeping wet with additional solution. Agitate surface again, mop up and rinse thoroughly with clean water.

In extremely severe cases:

Use undiluted and agitate with scrubbing brush or mechanical scrubber leaving for as long as necessary. Do not allow to dry on the surface. If it appears to be drying apply more solution and continue to agitate. Rinse treated surface thoroughly with clean water after use.

Coverage:

In mild cases:	approximately 50m ² per litre
In more severe cases:	approximately 20m ² per litre
In extremely severe cases:	approximately 5-10m ² per litre

This product should not be used for every day cleaning of floors or walls that have been sealed.

PACKAGING & STORAGE

StoneFix Heavy Duty Grime remover is supplied in 1 & 5 litre containers boxed 6 & 4 units respectively. Keep cool and dry.

HEALTH & SAFETY

Irritating to eyes and skin Harmful by inhalation

Keep out of reach of children. Use gloves to apply. Avoid contact with eyes and skin. In case of contact with eyes rinse immediately with plenty of water and seek medical advice. If swallowed seek medical advice and show this container or label.

Dispose of this material and its container to hazardous or special waste collection point.

This information is offered without guarantee. The material should be used so as to take account of the local conditions and the surfaces to be treated. In case of doubt, the product should be tried out in an inconspicuous area
